

7800 Kit

Berlon's 7800 Kit consists of:

- Inner reinforcement tube
- Oversized radius kick-out plate
- Inner kick-out plate which acts as a lower reinforcement

THIS KIT CAN BE SPECIAL ORDERED ON ANY BERLON BUCKET!

Berlon has designed the **7800 Kit** for buckets that have extra heavy duty needs such as large skidloaders or extreme applications. The **7800 Kit** comes standard on the E-84 and E-90 bucket.

Angle Finder

With the **Berlon Angle Finder**, dealers will no longer need to guess the angle of their buckets. The Angle Finder will ensure proper measurements each and every time! **NO DEALER SHOULD BE WITHOUT ONE!!**

SUGGESTED LIST PRICE PG 953

60° Angle on Buckets

A **60° Back Angle** is a special order option on most Berlon buckets to increase rollback. It is required on early model Gehl machines. It is also ideal for grain, fertilizer, manure or slurry applications.

REMEMBER: ADDITIONAL INCREASED ROLLBACK RESULTS IN EQUALLY DECREASED DUMP ANGLE AND ALSO REDUCES CAPACITY.
