

# ***Bale Handler***

Part # BBH

**HOSE & COUPLER KIT SOLD SEPARATELY  
SEE PG 954 FOR MORE INFORMATION**

The **Berlon Bale Handler** efficiently handles both wrapped and unwrapped square or round bales. The smooth curved surfaces allow moving of plastic wrapped bales without tearing or puncturing the wrappers.

## Specifications

**Weight:** 475 lbs  
**Length (front to back):** 47"  
**Width (overall):** 56"-120"  
**Hydraulic Cylinder:** 2.5" X 24"  
**Cylinder Rod:** 1 1/8"

## Capacities

**Bale "Length":** 48"-96"  
**\*\*Weight:** Up to 2300#

The **Berlon Bale Handler** allows large bales to be moved and/or stacked quickly and efficiently. Careful attention to design provides smooth, curved surfaces, which contact the bale firmly and provide protection from punctures. Wrapped bales are handled best from the ends (where the plastic is thickest), but with care may be handled from other directions. The **Bale Handler** comes standard with a MPUF-1 mounting plate, cylinder, and powder painted black. *Other mounts are available at an upcharge.*

**! \*\*Warning:** Bale weight (plus BBH) must not exceed rated capacity of the loader. Load must at all times be kept as close to the ground as possible to prevent tipping. Use extra caution during operations over rough ground or when turning.
