

Heavy Duty High Volume Bucket

Some common uses: *Dirt, Gravel, Digging Out*

Part # HDHV-(width) Example: HDHV-60 is a 60" Heavy Duty High Volume Bucket

HDHV-Series

Berlon's **Heavy Duty High Volume Buckets** are built with the more aggressive skidloader operators in mind. They are available in widths of 60", 66", 72", 78", 84", 96" and 102".

3/4" X 6" Cutting Edge for Reinforced Corners.

Side Cutting Edges

Heavy Duty Steps

Dimple Plate

Berlon's **Heavy Duty High Volume Buckets** feature a reinforcement tube for strength, a 3/4" x 6" cutting edge with holes punched 6" on center, 2 heavy duty steps, side cutting edges, a radius kick-out plate for easy clean out and a dimple plate for a durable, long lasting bucket. The HDHV-Series comes powder painted black and is standard with a MPUF-1 mounting plate. All of these features show why **Berlon builds buckets the way they should be built!**

Suggested List Price Pg 930-931
