

Switchblade

Part # SWBLD

Features

- *Pullback*
- *Adjustable Shoes*
- *Rubber Edge in front of steel for better clean-up*
- *Different Mounts Available (Including for telehandlers)*

Here the **Switchblade** has optional snow deflector and pullback which can be used as a large snow pusher!

The Berlon **Switchblade** is the ultimate in pusher/scrapers. You can make it larger or smaller with just a few bolts. The standard **Switchblade** body comes 8 Ft long, powder painted black and with a MPUF-1 mounting plate. It is available with a variety of wings and extensions to increase the size to 10 Ft or 12 Ft wide. You can also add a 10" deflector on top and a pullback with either a metal or rubber edge! The 1 ½" thick, 10" wide, one piece, rubber blade runs along the full width of the **Switchblade** and is adjustable and replaceable. With all these options, it is easy to see that the **Switchblade** is the right choice for on the farm, jobsite or even at home!
