

# Utility Bucket

Some common uses: **General Purpose**

Part # UT-(width) Example: UT-60 is a 60" Utility Bucket

Old Bobcat Style Utility Bucket

3/4" X 6" Cutting Edge Sides for Reinforced Corners

## UT-Series

Berlon's **Utility Buckets** are excellent for general purpose use. Your overall bucket for large and small jobs. They come standard with a MPUF-1 mounting plate, powder painted black and are available in widths of 48", 54", 60", 66", 72" and 78".

## Wear Bars

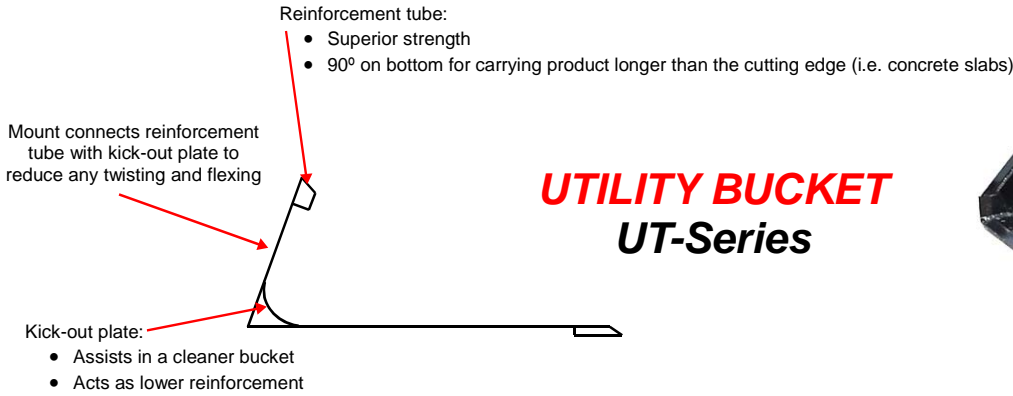

Picture Shown with Optional Bolt On Cutting Edge

Berlon's **Utility Buckets** offer superior quality. The inside of the bucket is fully welded and the back corner is built with a radius kick-out plate for strength and easy clean out. The back, outside corner is sharp which increases the strength of the bucket and also allows for ease in back dragging. The **Utility Bucket** comes standard with wear bars, a 3/4" x 6" cutting edge that is punched with holes 6" on center, a top reinforcement tube and 2 heavy duty steps. This bucket is powder painted black and also comes standard with a MPUF-1 mounting plate. All these features show that **Berlon builds buckets the way they should be built!**

Suggested List Price Pg 914-915
